Profile: Junior Software Developer

Summary:

- A passionate and dedicated Junior Software Developer with a fresh background in software engineering.
- Recently completed a comprehensive training program that equipped me with strong programming skills, practical experience in full-stack development, and a keen interest in solving real-world problems through technology.
- I am eager to apply my knowledge in a dynamic environment where I can contribute to impactful projects and continue learning.

Experience:

FullStack Developer Intern | Power Learn Academy | june 20124 – present

Responsibilities and Contributions:

- Collaborated with senior developers to design, develop, and maintain web applications using HTML, CSS, and JavaScript.
- Assisted in back-end development using Node.js and integrated database like MySQL to ensure efficient data management.
- Participated in the development and implementation of RESTful APIs to connect front-end interfaces with back-end systems.
- Contributed to code reviews and debugging processes, ensuring clean, maintainable, and efficient code.
- Worked on optimizing front-end performance for a seamless user experience, including enhancing the responsiveness and functionality of web applications.
- Gained exposure to Agile methodologies by actively participating in daily stand-ups, sprint planning, and retrospectives.

Projects:

- **Donation Management System:** Designed and developed an admin dashboard to manage donations, user roles, and community details. Implemented user authentication, donation tracking, and real-time updates using JavaScript, Node.js and MySQL.

- **Expense Tracker App:** Built with JavaScript, Node.js, and MySQL, this web application helps users track their daily expenses. It allows users to categorize expenses, view transaction history, and generate reports for financial analysis. Implemented a secure back-end for storing user data and performing CRUD operations.

- **Portfolio Website:** Designed and developed a personal portfolio website to showcase my projects, technical skills, and accomplishments. The site is continuously updated with new work and serves as a platform to demonstrate my growth as a developer. Built using HTML, CSS, and JavaScript, with smooth navigation and responsive design.

Education:

NIGER DELTA UNIVERSITY, BAYELSA, NIGERIA.
B.SC BUSINESS ADMINISTRATION (MARKETING).

2010-2014

Training and Certifications

POWER LEARN ACADEMY, NAIROBI, KENYA.
SOFTWARE ENGINEERING
2024

Technical Skills:

- **Languages:** JavaScript (Vanilla JS), HTML, CSS
- **Frameworks:** React, Node.js
- **Databases:** MySQL
- **Version Control:** Git, GitHub
- **Development Tools:** Visual Studio Code, Git Bash
- **APIs:** RESTful API development and integration
- **Other:** Agile methodologies and debugging

Soft Skills:

- Strong communication and collaboration skills
- Eager to learn and adapt to new technologies
- Attention to detail and quality in coding practices
- Problem-solving mindset with a proactive approach

Availability: Available for full-time, part-time, or freelance opportunities.
